SCC

1) Approval of minutes

2) Membership Report due October 20th: appears to have been posted on the website with an updated roster. **John Kelly: do we need anything additional?**

3) Review and approve LAND Trust and SIP including budgets (Jason Finch)

REPORT CARD: includes demographic backgrounds and academic performance. Language Arts is lowest of the three scores and all are listed in context of some (overlapping) demographics. ELL and students with disabilities (determined by IEP) are performing lowest. Goal is to increase ELL learners proficiency.

FEDERAL ACCOUNTABILITY REPORT: offers the breakdown of individual grade levels and the median growth percent (MGP). Of the 200 students test; 92 had growth, 46 had below proficient growth. So, on a whole, the proficiency is low but growth is high.

STUDENT SCORE REPORT: last year we received a C grade which is an improvement, there are comparison reports on the state website if people are interested.

SCC MEMBER COMMENTS:

AG: Does teacher turnover impact these reports? // TK: Not reflected in this score

RE: Curious if new apartments are bringing students // SK: Not currently

HF/SS: Discussion of neighborhood parents shopping for schools // AA: think school can share data about the academic and social benefits of diversity to continue to combat negative perceptions.

LAND TRUST PLAN:

– Improve ELA and Math growth by 1.5 academic years by strengthening target interventions in A2A process.

– Using PLCs to make informed decisions.

– Focusing on ELA because it supports all subject areas

– Baselines vary from student to student.

– Action steps (where \$\$ goes) is to interventionists (20K) and remaining 10K to Kindergarten Paraprofessional salaries.

SCC Member Comments:

TK: describes experiences with classrooms and how they use services differently and how teachers select students for support and how interventionists flag students for intervention, addresses concerns (AG) about avoiding students feeling singled out.

SK: Reports that all faculty responded they feel interventions are the greatest academic need.

AG: Budget and carryover look good.

4) Review emergency plan, including emergency drills and evacuation.

SCC Member Comments:

LS: Questions about procedures for checking off kids and addressing medical issues; JF and TK review those procedures.

SS: Wonders if this is publicly available — Jason Finch will check and pass out copies of the plan at the next meeting.

KK: Suggests our building may be safer than the Warehouse depending on the emergency.

5) Digital Citizenship Review:

All members! Please review this .pdf before the next meeting so we can take comments. <https://www.slcschools.org/board-of-education/shared-governance/documents/TechnologyRequirement.pdf>

6) Shared Governance Training (new video) and Title 1 Training Idea.

At the next meeting Aaron Garrett will review the new video and offer a date for a Shared Governance Training with other Title 1 SCCs. He can post the link to the PFFOW Facebook group in advance.

7) Water Testing Results: Washington is within the appropriate range for lead. Anyone anyone can review results here: https://waterlink.utah.gov/deqWater/public/reports/viewReport.html?reportKey=ddw_lead_school_actions

8) Art Night Dates: have faculty committee, saving week of May 7-10 for events including Folk Dance assemblies. Budget of \$800.

9) Next meeting is November 2, 2017 at 3:15. Agenda items include revisiting Digital Citizenship, Shared Governance, an update on District Pathway Indicators, and Accountability Standards changes in the coming year. If there are additional agenda items please e-mail ashley.michelle.anderson@gmail.com
